

Babies First!

**You want what's best for your child. We do too!
That's why we're working with other community
agencies across Brant County to make your
baby's health and safety our main concern.**

Introducing the Brant Community Protocol

Community agencies in Brant County have developed a code of practice to include babies under 24 months of age in our delivery of service. We know that children at this age can't speak for themselves and can be a very vulnerable part of our community. That's why we're working with parents, caregivers and service providers in our community to make sure all children who pass through our doors are safe, healthy and happy.

What does this mean for you?

We may have a few questions to ask you about all the children in your family. We appreciate your help and understanding with this process. By working together, we can help all Brant County children get a great start in life.
